

Wireless Network Shopping List

I need

A Wireless Access Point

A Wireless router with the following features
(These features are common in all wireless routers today)

- Built in firewall
- 802.11g and 802.11n compatibility
- WPA2 security

If possible, I would like my router to have the following additional features:

A print server compatible with _____ operating systems.

and _____ brand and model of printer.

A built in VPN

Network file storage compatible with _____ operating systems.

An advanced firewall with Stateful Packet Inspection (SPI)

I also need wireless access cards for the following:

_____ of type _____ USB 2.0 _____ for _____ Laptop _____ with the _____ operating system.
_____ USB 1.1 _____ Desktop _____
_____ PCMCIA _____
_____ Cardbus _____

.....

_____ of type _____ USB 2.0 _____ for _____ Laptop _____ with the _____ operating system.
_____ USB 1.1 _____ Desktop _____
_____ PCMCIA _____
_____ Cardbus _____

Also, I need to pick up:

A _____ foot-long network (Ethernet) cable.

Another _____ foot-long network cable to use built in wiring.
